## Clark County GIS Accessing the Public Web Site

Access the GIS applications by going to the Clark County website at [www.clark.wa.gov](http://www.clark.wa.gov),

click on “A-Z index of services” and select “G” for “GIS”.

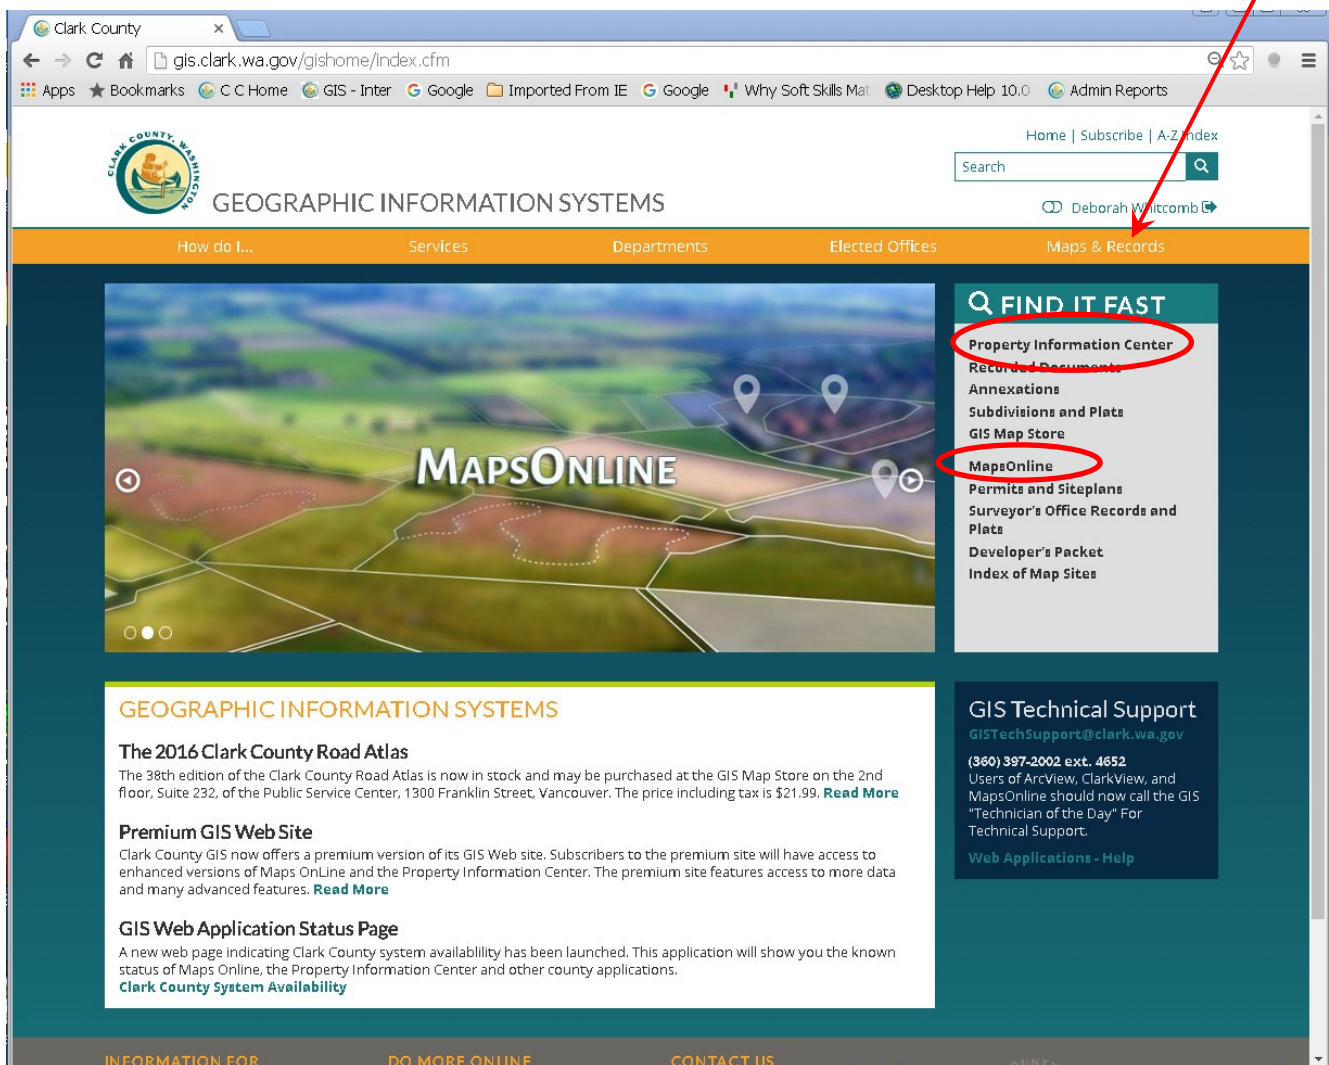

Links to these applications are under “Find It Fast” located at the upper right side of the screen:

[Property Information Center](#)

[MapsOnline](#)

[Subdivision and Plats Browser](#)

To access additional programs (e.g. [Quarter Section Maps](#), click on the “Maps & Records” link

## Property Information Center

Most of the information you need on a property may be available right in the Property Information Center (PIC).

Eight screens display assessment data, zoning, district boundaries, building photos, environmental constraints, taxes, recorded documents, permits, and a comparable sales search. The Property Information Center also allows you to view and print subdivision and short plat maps, and recorded surveys.

The PIC also links directly to the subject parcel in MapsOnline.

# MapsOnline

MapsOnline is Clark County's Internet mapping application. MapsOnline also links directly to the subject parcel in the Property Information Center.

## ACCESSING MapsOnline – 3 methods

### 1) Link to MapsOnline through the Clark County web page.

Hover your mouse cursor over the "Maps & Records" link. Then select one of the MapSites listed under "MapsOnline".

### 2) Link to MapsOnline through the Property Information Center

Click on the link to Maps Online in the Property Information Center report. The MapsOnline map will be centered on the selected parcel.

### 3) Link to MapsOnline through the Subdivision Browser

#### Subdivision Information Browser

Link to MapsOnline

The MapsOnline map will be centered on the selected subdivision.

When MapsOnline is first opened, it will look like this:

It will open in the “Property and Land Records” map site and will be zoomed out to the full extent of Clark County.

The following pages will show you how to:

- [Add different data layers to your map](#)
- [Zoom to different locations in the county.](#)
- [Identify features by clicking on the map.](#)
- [Print a map.](#)

## ADDING MAP THEMES

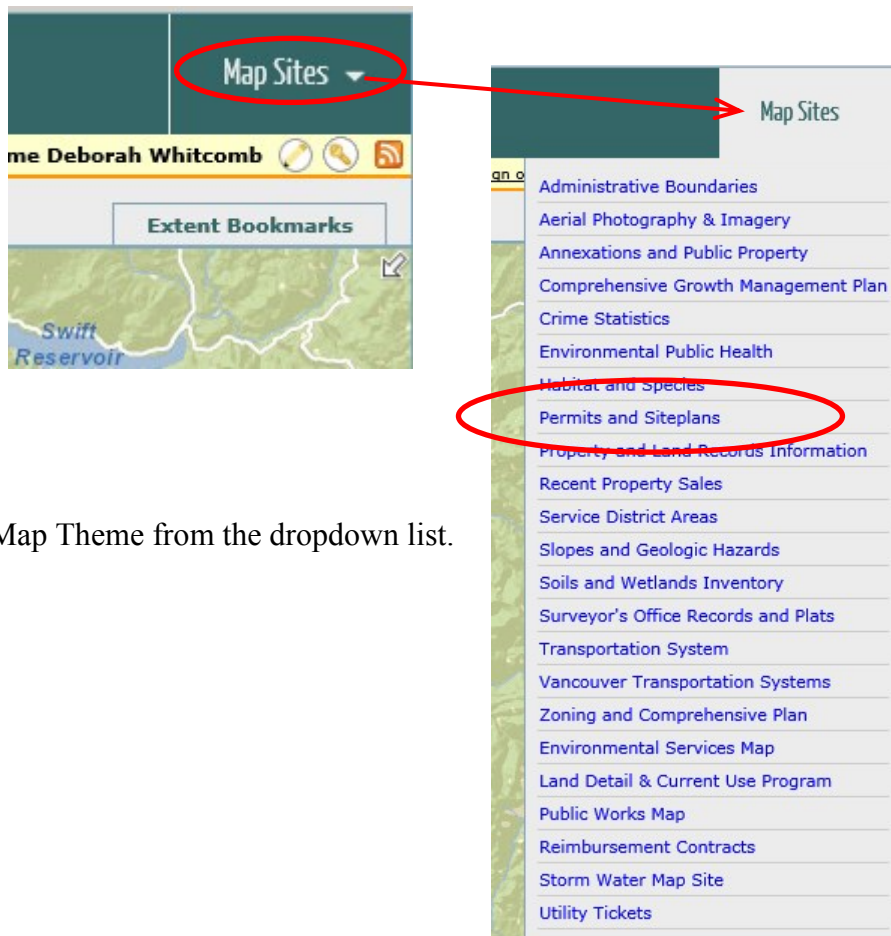

MapsOnline offers two ways to add layers to the map display. The various map themes and their associated data layers are available through the “Map Sites” tab.

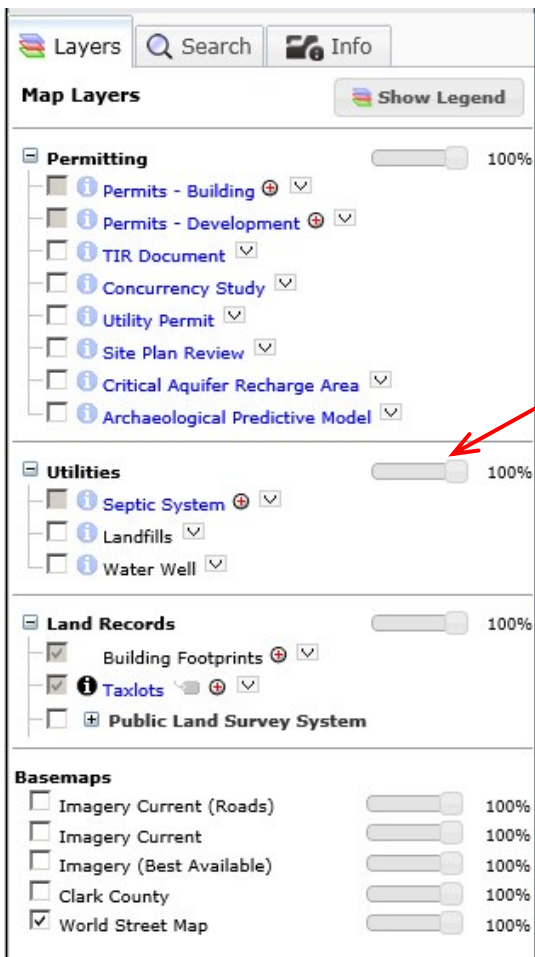

This option will list the layers that you will find at each Map Site.

Click on the desired Map Site.

You can also use the “Map Sites” dropdown in the upper right-hand corner of the screen.

Select a Map Theme from the dropdown list.

This will take you to the Layers tab, where the layers for this Map Site will all be listed.

Each group of layers has a transparency option that can be controlled with a slider bar.

Three types of Basemaps are available for the background of your map. These also have a transparency option.

The icons displayed on the Map Layers tab will vary depending on which layers you have loaded and what scale your map is at. Here is a sample of some of the icons you may see:

- ☒ If the check box is grayed out, the layer is not available at the current scale
- The red plus symbol indicates the map is zoomed out too far to display this layer. Click to zoom in to the scale at which the layer will display.
- The red minus symbol indicates the map is zoomed in too close to display this layer. Click to zoom out to the closest scale at which this layer is available.
- This symbol indicates a layer is the Active Identify layer.
- Click to make the layer be the active layer.
- This layer cannot be activated at the current scale
- Click to turn the labels for this layer on. Not all layers will have a label option.
- Click to display the legend for this layer.

## LOCATING A PROPERTY

### Using the Find Parcel Tab

Click on the **Find Parcel** tab. There is a list of tips on entering a field value below the Search dialog boxes.

#### Find Parcel

Street Address:

Tax Account:

Choose one of these fields and enter a value:

Street Address  
Tax Account

Click the  button.

#### Search Options (choose one)

A house number: 1300  
A street name: franklin  
A partial address: 1300 f  
A complete address: 1300 franklin st  
A tax account: 055735000

TIP: for Street Address, only enter a portion of the address, e.g. "1300" for an address of "1300 Franklin St."

If there is more than one property that matches your search, you will be given a list to choose from.

Layers Search Info

**Parcel Report**

[Zoom To Parcel on Map](#)  
[Property Information Center](#)

**Parcel Information**

Account Number: 55735000

**Property Location Address**  
1300 FRANKLIN ST, VANCOUVER, 98660

**Property Owner**  
CLARK COUNTY GENERAL SERVICES

**Owner Mailing Address**  
PO BOX 5000  
VANCOUVER WA, 98666

**Most Recent Sale**

Sale Date: 05/17/2005  
Document Type: D-QCD  
Document Number: 0566725  
Sale Amount: \$0.00

**Property Photo**

Photo Date: 05/25/2004

Click photo for printable image

The map will zoom to the selected parcel.

The Results will be displayed in a short report.

There is a link back to the Property Information Center.

## SEARCHING BY OTHER LAYERS

### Using the Search Tab

Some Map Sites will have an additional Search tab that allows you to search by layers specific to that Map Site.

The following example shows how to use the Search tab to locate a Recorded Survey.

Select the “Surveyor’s Office Records and Plats” Map Theme.

Click on the **Search** tab.

The image shows a web interface with a 'Search' tab selected. Below it is a 'Search Types' dropdown menu. The options are: 'Survey Control - Horizontal Control', 'Benchmarks - Vertical Control', 'Land Corners', 'Sections', 'Road Bin Projects', 'Recorded Surveys', 'Unrecorded Surveys', and 'Subdivisions and Plats'. 'Recorded Surveys' is circled in red. Below the dropdown is a section titled 'Recorded Property Surveys' with input fields for 'BookPage:', 'Surveyor:', and 'Client:', and a 'Submit Query' button. A small text block at the bottom explains the classification of recorded surveys.

Select the “Recorded Surveys” option under “Search Types.

Do a Search for Recorded Survey by Book-Page –  
e.g. if searching for Book 24, Page 5

For the Book-Page field,  
enter an Attribute Value of “024005”.

Click the **Submit Query** button.

The Survey Details will be displayed.

Click on the Image links to view available scanned images (TIF or PDF format).

Click on the [Zoom To on Map](#) link to center the map on the selected feature.

## SEARCHING BY INTERSECTION

Click on the **Locate Address** tab and follow the example to find the location of an intersection.

## USING the IDENTIFY TOOL

**i** The **Identify** tool reports on the feature the user clicks on.

It is used in conjunction with the Active Identify layer set on the Layers tab.

**i** This symbol indicates a layer is the Active Identify layer.

Click on an inactive symbol **i** to make a layer active.

Then click on the map to select the feature. The selected feature will be outlined in turquoise.

A short report on the selected feature will be displayed. Often it will include links to additional information on the feature.

## USING the SELECTION TOOLS

You can select features by point, line, polygon, or rectangle.

They are used in conjunction with the Active layer set on the Layers tab.

The selected feature(s) will be shaded in turquoise. The tool reports on the selected feature(s).

**NOTE:** The tools are located in the **Selection Toolbox**

Click on the Toolbox to open it. Then

click on the desired tool.

e.g. the **Select by Rectangle** tool reports on feature(s) selected by clicking on the screen and dragging a rectangle within the desired feature(s).

## PRINTING A MAP

After you have selected a parcel and added any layers that you want, you can print a map by going to the Print Map tab.

**Create a Map**

---

Map Title:

Notes:

Template:

Scale:

Format:

Enter a Map Title, if desired.

Choose the Template you want to use from the dropdown list. (You can also choose a “Map Image Only” option if you don’t want the title and legend.)

Select the desired format.

Click “Create Map.

It may take a few minutes for the next screen to appear.

### **Map Created**

Map created successfully.

[\[ the map \]](#)

To save the map document, right click on the link above, then click "Save As"

If the map is in Adobe Acrobat PDF format. You probably have the Adobe Acrobat Reader installed on your computer but if not, you can download it for free from Adobe.

When it does, click on “the map” link to view your map.

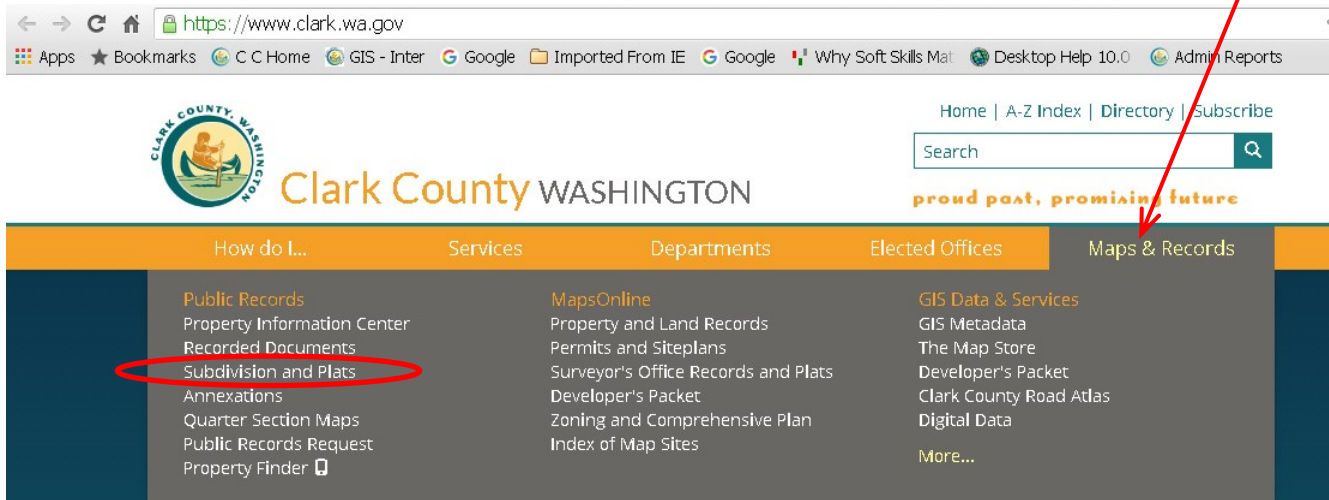

The map will be displayed in a separate window.

Print the map by going to the File menu and selecting the Print option.

## Subdivision and Plats Browser

### Viewing & Printing Subdivisions or Short Plats

If you know the Name or Book-Page of a subdivision, you can search for it directly from the “Subdivision and Plats” Browser on the Clark County home page. (Hover your cursor over the “Maps & Records” link.)

The Subdivision Information Browser will be displayed.

### Subdivision Information Browser

A screenshot of the Subdivision Information Browser search form. The form has a yellow background and a title 'Search where:'. Below the title, there is a dropdown menu with the following options: 'Subdivision name', 'Subdivision name', 'Book-Page number', 'Parent serial number', 'Recording date', and 'Before recording date'. The first 'Subdivision name' option is highlighted with a red circle. To the right of the dropdown menu, there is a text input field with the placeholder text 'Equals OR Includes'. A red arrow points from the 'Subdivision name' option in the dropdown menu to the text input field. To the right of the text input field, there is a green 'Submit' button. Below the search form, there is a message that says 'Subdivision Name 0 records returned using'.

Select the type of search you want to use from the dropdown menu. Typical searches are on “Subdivision name” or “Book-Page number”. Then enter a value in the textbox.

Subdivision Book-Page formats: G108, 311099

Short Plat Book-Page format: 1-22

If you get a list of subdivisions from your search, click on the desired subdivision in the list. The subdivision report will expand as shown below:

<b>310737 PRAIRIE MEADOW</b>			
Subdivision Name:	PRAIRIE MEADOW		
Book Page:	310737		
Location:	321 33 SE		
Surveyor:	MINISTER & GLAESER		
Recording Date:	13 Dec 1999	<a href="#">Maps Online</a>	
Date to Treasurer:	21 Oct 1999	Recording Number:	<a href="#">3177655</a>
GIS Completion Date:	13 Mar 2000	Original Property Accounts:	<a href="#">199635000</a>
<b>Subdivision Documents</b>		Asbuilt Drawing(s)	Preliminary Drawings
<a href="#">TIF</a> <a href="#">PDF</a> - Document #1			Resultant Property Accounts

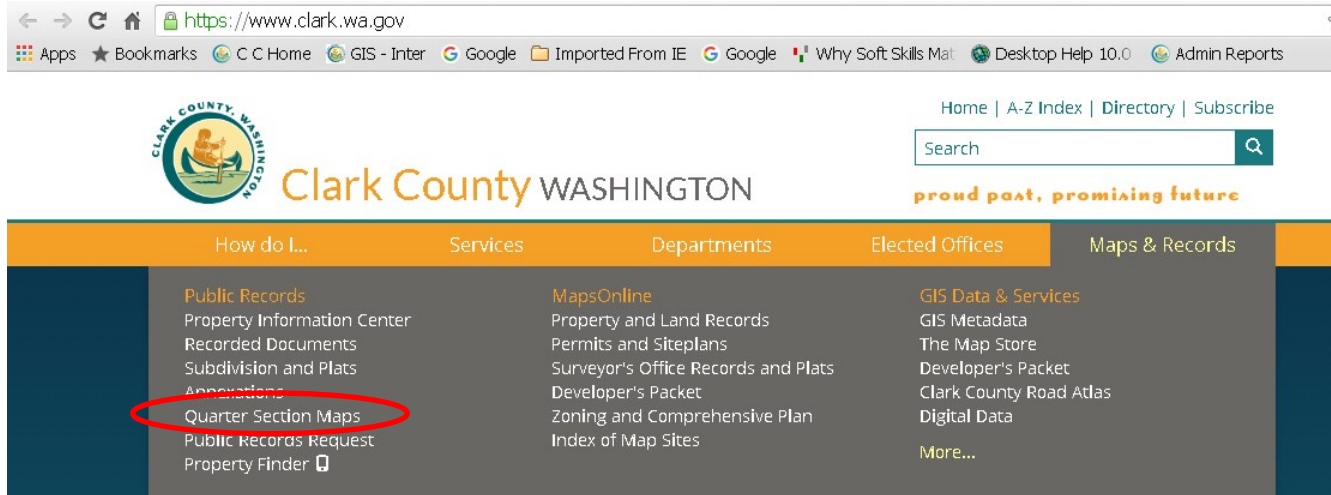

Click on the Image links at the bottom of the Subdivision Report page. There may also be links to AsBuilt and Preliminary Drawings.

You can link back to MapsOnline. When MapsOnline opens, the map will be centered on your selected subdivision.

# Quarter-Section Browser

## Viewing & Printing Quarter-Section Maps

If you know the quarter-section that you want to view, you can search for it directly from the Quarter Section Browser on the GIS home page.

## Quarter Section Browser

Enter Geocode:

- 2 - Township 2N
- 2 - Range 2
- 1 - East Meridian (2 - West Meridian)
- 16 - Section 16

Enter the section number you want and click the "Submit" button.

Definition for: 22116	
<b>Township:</b>	2
<b>Range:</b>	2
<b>Meridian:</b>	East
<b>Section:</b>	16

Quarter Section Maps			
NorthWest	 PDF	 TIF	
NorthEast	 PDF	 TIF	
SouthWest	 PDF	 TIF	
SouthEast	 PDF	 TIF	

In the Section report, click on the quarter-section image you want to view or print.
